

ASHIFUL HOQUE CHOWDHURY TANBIN

NORTH KATTALI, AKBAR SHAH, CHITTAGONG-4217, BANGLADESH

01533064196 | TANBINCHY@GMAIL.COM

PROFILE

I have earned my honors degree in Computer Science and Engineering (CSE) from Port City International University. As a motivated Computer Science graduate, I have developed strong expertise in building efficient data management solutions, creating user-focused websites and applications and strengthening system security frameworks. During my university projects, my focus was to contribute in measurable improvements in operational efficiency, user experience and overall system reliability. With a solid technical foundation and a strong enthusiasm for innovation, I am keen to apply my skills to tackle complex challenges and contribute to meaningful technological progress in my next professional opportunity.

ACADEMIC RECORDS

- **BACHELOR OF SCIENCE | JANUARY 2022 - JANUARY 2026**
 - Port City International University, Chattogram
 - Major: Computer Science & Engineering
 - Grade: 3.83/4.00
- **HIGHER SECONDARY CERTIFICATE | 2019**
 - Board of Intermediate & Secondary Education, Chattogram
 - Major: Science
 - Grade: 4.08/5.00
- **SECONDARY SCHOOL CERTIFICATE | 2017**
 - Board of Intermediate & Secondary Education, Chattogram
 - Major: Science
 - Grade: 4.33/5.00

MY PERSONAL PORTFOLIO WEB APP

[Ashiful Hoque Chowdhury Tanbin | Portfolio](#)

A modern full-stack developer portfolio showcasing projects, technical skills, and professional experience. It highlights expertise in frontend, backend, database, and tools through interactive UI sections. The site includes featured projects, client reviews, and service offerings such as web and API development. Designed with a clean, responsive interface to ensure smooth user experience across devices.

Note: If the site loads slowly, please reload after 30 seconds (hosted on a free-tier service).

PROJECTS (20+)

1 POKÉMON EXPLORER – [LIVE SITE](#) || [GITHUB](#)

- An interactive platform that allows users to explore detailed information about Pokémon characters using data from a public API.
- Users can search for Pokémon by name, view their stats, types and abilities and filter results based on generation or type.
- Includes a responsive UI and optimized data handling for smooth user experience.

- Technologies: React.js, REST API, JavaScript, CSS

2 EXPANSE MANAGEMENT SYSTEM – [LIVE SITE](#) || [GITHUB](#)

- A user-friendly expense tracking system designed to manage daily and monthly expenditures efficiently.
- Features include adding, editing and deleting expenses, categorizing by type and visualizing data through charts.
- Includes local storage persistence and responsive design for accessibility across devices.
- Technologies: React.js, JavaScript, Bootstrap, Local Storage

3 INTEREST CALCULATOR – [LIVE SITE](#) || [GITHUB](#)

- A dynamic calculator that computes both simple and compound interest based on user inputs.
- Users can input principal, rate, time and compounding frequency to instantly view results.
- Includes form validation, live calculation updates and a clean, mobile-responsive design.
- Technologies: HTML, CSS, JavaScript

4 BLOG APPLICATION – [LIVE SITE](#) || [GITHUB](#)

- A full-featured blog platform that allows users to register, create, edit and publish posts, as well as comment and interact with other users.
- Includes an admin dashboard for managing users, moderating content and overseeing site settings.
- Features secure authentication, role-based access control, search functionality, responsive design and optimized performance for a smooth user experience.
- Technologies: Next.js, Express.js, MongoDB, JWT, Vercel
